Objective: Internship in Technology, Full-Stack Web, Mobile.

PROFESSIONAL SUMMARY

- ✓ I have professional experience as a Young Apprentice at Senai. I worked as an Administrative Assistant, responsible for creating and managing spreadsheets, and organizing and classifying physical and virtual documents.

In the financial area, I held the positions of Young Apprentice and, later, Junior Financial Analyst – Treasury, focusing on controls, receipts, payments, analyses, and projects. My career also includes experience in commission-based sales of cosmetics by catalog.

I am a person who always seeks to improve and learn new things, which makes me enjoy challenges and naturally led me to the programming field. I am a proactive person and adapt well to new situations, always seeking growth. Among my characteristics are: adaptability, good interpersonal relationships, punctuality, dynamism, and dedication to work.
